Utilized to pass CMMC Level 2 Certification

C3PAO assessments cost ~30% less

Exclusively US-based staff & operations

No hidden fees – cloud resource usage included in subscription

Continuous security updates and feature upgrades

In-House CMMC Compliance Managers

Why Cuick Trac is the Right Choice

The Cuick Trac Managed Enclave (CTME) delivers a fully managed, compliant environment for federal contractors to securely handle CUI. Rather than piecing together tools, CTME provides secure email, Microsoft 365 (GCC High), and controlled web browsing within a FedRAMP Moderate Equivalent enclave—giving teams everything they need to work compliantly from day one. File sharing, storage, and collaboration are built into the environment, not bolted on, ensuring security and usability without added complexity.

Fast-Track Your CUI Compliance Today

Contact a product expert to discover how the Cuick Trac Managed Enclave can protect your CUI faster, with less effort, and with more features than any other DFARS-compliant product available.
